

Merchant Assurance Policy

What We Promise To Do:

As our customer, we are committed to providing you with honest merchant processing at very competitive rates. If you are approached by someone offering you a deal that sounds too good to be true, call us and we will analyze that offer based upon the actual history of your processing experiences, not by guessing. We are confident in our ability to be competitive, and we will show you the results in a side-by-side comparison. If you receive a legitimate offer that would result in you paying less per month for your credit card processing, we will meet or beat that offer, or pay you \$1,000. (merchant assurance fee*)

What You Promise To Do:

If you are approached by someone trying to convince you to switch processors, please call us and we will provide you with a quick cost comparison on what you are currently paying and how it stacks up to the competitor's offer.
